THE REMINGTON WORKS

A NEW IMPROVED

REMINGTON SEWING MACHINE

AWARD

The "Model for Progress."

AT VIENNA, 1873.

The Highest Order of "Model" Awarded at the Exposition.

NO SEWING MACHINE RECEIVED A HIGHER PRIZE

A FEW GOOD REASONS:

1.—A New Invention thoroughly tested and cured by Letters Patent.

2.—Made as PERFECT Lock Stich, alike on both sides of the fabric, and makes

no Rips, Lifts, Snaps, Noises, and Holes—best combination of qualities.

3.—Durable—Runs for years without repairs.

4.—Will do all varieties of Work and Fancy stitching in a superior manner.

5.—Is most easily managed by the operator, strength of stitch may be altered while running, and machine can be threaded without passing thread through hole.

6.—Design Simple, Ingenious, elegant, and attractive, and the work of art of the

workman is equal to that of the

operator.

7.—Automatic Drop Feed, which insures uniform length of stitch at any speed.

8.—Threading Controller, which follows easy movement of needle-rod and thread, instead of the hand.

9.—Construction most careful and finished; it is manufactured by the most skillful and experienced machinists at the celebrated REMINGTON ARMORY, ILLINOIS.
